

COVID-19 INFECTS YOUNG AND HEALTHY PEOPLE AS WELL

IN NSW, OVER 2,000 ABORIGINAL AND TORRES STRAIT ISLANDER PEOPLE AGED 20 YEARS AND UNDER INFECTED IN ONLY 8 WEEKS

We know that the Delta strain of the COVID-19 virus spreads faster. And young and healthy people can catch COVID-19 as easily as the older population. In fact, in just eight weeks the virus infected more than 2,000 Aboriginal and Torres Strait Islander people under 20 years old in one part of New South Wales this year. The best way to protect yourself and the people around you is to get vaccinated.

Have a yarn to your healthcare worker about getting vaccinated today.

DON'T WAIT, VACCINATE!
