

## ABOUT US

NCACCH is a not for profit, Aboriginal Community Controlled Health Organisation delivering comprehensive primary health care services through our unique hybrid Brokerage and Aboriginal Medical Service (AMS) model of care.

We provide our Aboriginal and Torres Strait Islander clients, and their families, with access to clinical and non-clinical health services, programs and activities across the Sunshine Coast and Gympie regions.

With the purpose of providing a holistic and comprehensive primary health care approach, NCACCH seeks to improve health and wellbeing outcomes to our community by encouraging choice between Brokerage and AMS service provision.

NCACCH has a vision to 'improve the health and wellbeing of our community through the provision of culturally safe, responsive, and inclusive services'.
